In this 2019 edition of AquaConsoil, more focus is given to the view of the problem owner on contaminated land management. For this, two special programme lines are organized:

**ACS 2019 ECONOMIC DAY**
Wednesday, 22 May | room: Darwin Hall

- The Economic Day focuses on the financial and liability aspects of contaminated land. On Wednesday 22nd, three sessions are organized:
  1) accounting rules related to environmental liability,
  2) quantifying environmental liabilities in the due diligence process and
  3) the daily practice of the financial part of contaminated land management.

This day closes with the “Flemish session”, in which you will be guided through the development of soil policy in Flanders.

**ACS 2019 LEGAL DAY**
Thursday, 23 May | room: Okapi 3

- The Legal Day (on Thursday May 23rd) contains 4 sessions. In these sessions, the following topics will be presented and discussed:
  1) international development of remediation policy,
  2) international development of contaminated land policy,
  3) the relationship soil-sediments-waste and
  4) the interaction between the technician and the lawyer.

Register now for these AquaConSoil2019 special programme lines:

In case that you already have registered for AquaConSoil 2019 (or if you are planning to do so), your registration fee includes the participation in both the Economic and the Legal Day.

In case that you are interested in participating in the Economic and/or the Legal Day only:

Special entrance tickets can be bought (valid for one of the programme lines: the Economic Day or the Legal Day) for € 395.
